

Facilitating Patient Care...

Mobile Medical Stand

Source Global's Point of Care Mobile Medical Roll Stand provides a durable, portable workstation solution for practical deployment in a number of medical and service environments. The aluminum mounting plate allows for the attachment of monitoring equipment, tablet or laptop connectivity.

Standard and custom design options are available in order to create the optimal configuration in order to meet your unique needs. Units are also available in wall and bed-mount configurations.

^ PE Coated steel basket is designed to hold a variety of objects in a generous 13" x 8" x 6" space.

< Mobile unit stands 37.7" when completely assembled.

< The Powder Coated post is 2.4" in diameter.

< Most of unit is shipped pre-assembled (see next page).

< Base floor clearance of 2.35" allows for easy threshold clearance.

^ Double post clamps provide stability and strength for high-load applications.

A sturdy, industrial-thick plastic grip handle provides additional strength for the mobile unit.
